

# Budget Accountability System (BAS)

## Use BAS to handle acceptance and payment of claims, budgeting, and reporting

**BAS** enables government agencies to disburse claims payments to thousands of providers, monitor multiple-source funded budgets, and automatically reconcile accounts.

Employing a user-friendly interface, **BAS** allows your organization to accept and pay claims, handle complex budgeting requirements, and create customized reports. Reports can be distributed via email or downloaded upon request.

**BAS** can handle advanced calculations and budget tracking, multiple approval levels, budget rollover to facilitate Year Open/Close, and volume claims payments against budgets.

Type	FM	FY/Budget Region	Provider	Contract	FY	Status	Yrns Processed	Drpt	Claim	First Med	Cms Work	Like	FO Approv	DOB

## Sample Claim Status Report

### What does it cost?

We offer a variety of pricing models:

- Monthly subscriptions
- Small up-front fee + per usage fee

**Our goal is to ensure that you get far more value than what you pay for.**

### Possible Uses:

- Custom budget management
- Import and integrate data from other systems
- Support for compliance rules
- Create claims status reports
- Automated reconciliation of budgets to claims disbursements
- Custom reporting (including options for legacy system reporting)

### Key Features:

- *Uses a full business rules repository approach*
- *No hand coding*
- *Separate repositories for data validation rules and interface mapping*
- *100% of the code is generated*
- *Multiple code generation language choices (Java, PL/SQL, etc.)*
- *Web-based and cloud hosted - nothing to install*
- *Hosted at HIPAA-secure site*
- *Upload forms to EMR*
